Results from our Network:

*"Since signing up with NetworkMultisport, I have been amazed at the advancements in what is available to me. Networkmultisport has a bunch of great companies/providers onboard and I feel privileged to be supported by such a large network. I have been given great discounts on gear and services and I wouldn't have the level of racing/training equipment I have now without Networkmultisport. I also have peace of mind that if there is something I need to keep me on track for my Ironman racing goals; Networkmultisport will support me in getting it. Network Multisport is a one-stop-shop for multisport athletes and I only see it going from strength to strength." --- **James Duncan***

*"Being a full time shift worker a mum and a keen triathlete I find it hard to take the time to train the right way. Since signing up with Mat and becoming part of the NetworkMultisport it has made my training regime more structured, balancing the other areas of my life. If I need to know who to go to for support or information on racing, training, nutrition and general maintenance NetworkMultisport is the link between being a hack and having a crack."---**Deb Reilly***
